MY HOME, MY ROOM

There is still a lot of work to be done and time spent at home. In this flow, a house is a space where one's own tastes are more melted, and it is the only place where one's own rules are applied without noticing other people. Through this, we introduce three original themes that become the basics.

01

NATURAL MOOD

Surround Yourself with Nature

Many people are starting to pay a lot of attention to health and the natural environment. We propose designs inspired by natural materials and introduce products that provide a genuine and comfortable feeling.

02

MODERN MOOD

Minimalist Direction

As many people stay at home for a long time, they pay more attention to space utilization. By reflecting these elements, minimalism, which removes unnecessary things and leaves the space itself, continues. Through this, we propose a modern interior in a form faithful to the basics.

03

SOLID MOOD

Mix and Match

As the time spent at home increases, people find new stimulation and pleasure at home. Using sensuous textures and fabrics, it is decorated like a gallery or a hotel. A variety of color combinations create an elegant yet luxurious interior.
