Blossomy

Blossomy means abounding in or covered with flowers. The idea of **Blossomy** comes by a thought that walls must look full of colors of flowers and joy with a subtle taste.

These designs can be applied on wall panels and as well as on long walls like big corridors, etc.

These designs are heavily textured to give you the best feel from distance look as well as closeup look.

These designs can be tailor made in **SINGLE PIECE** upto 10ft height which will ultimately give you a nice seamless experience .
